

OUTPUT SCREENSHOTS:

The screenshot displays a web browser window with the title "Movie Box Office Gross Prediction". The page has a light blue background with a central pink rectangular form. The form contains the following input fields and dropdown menus:

- Enter the movie's budget
- Select the movie's genre
- Does the movie have a homepage
- Select the language used in the movie
- Enter the movie's popularity
- Enter the movie's runtime
- Current movie status
- Enter the average votes received by the movie
- Enter the count of people who voted for the movie
- Select the day on which the movie was released

The browser's address bar shows the URL "127.0.0.1:5000". The Windows taskbar at the bottom includes a search bar, application icons, and system information: "30°C Partly cloudy", "20:52", and "30-06-2023".

This screenshot shows the same web application as the first, but with an additional input field and a button at the bottom of the pink form:

- Select the month in which the movie was released
- Enter the year in which the movie was released
- Predict Movie's Revenue

The browser window and Windows taskbar are identical to the first screenshot, showing the same URL, icons, and system information.
